

PRESS RELEASE

Ferrières-en-Brie, 3 February 2026

## **KLUBB GROUP AND ITS SUBSIDIARIES KLUBB FRANCE, KLUBB SARL AND KLUBB ENGINEERING ADMITTED TO JUDICIAL REHABILITATION PROCEEDINGS TO CARRY OUT A FINANCIAL RESTRUCTURING AS PART OF THEIR CONTINUING OPERATIONS**

At the request of KLUBB Group and its subsidiaries KLUBB France, KLUBB SARL and KLUBB Engineering, the Specialized Commercial Court of Bobigny ordered the opening of judicial rehabilitation proceedings (redressement judiciaire), limited to these four group entities, on 3rd February 2026. The other entities of the KLUBB group are not affected.

This process is intended to facilitate discussions to implement a restructuring of the Group's liabilities and sustainably strengthen its financial structure.

It comes at a pivotal stage in KLUBB's development, as the company is currently benefiting from an unprecedented order backlog and strong commercial momentum, both in France and internationally. However, following several years of inflation, shifting demand patterns, and significant tensions across industrial supply chains, reorganization measures – already underway and continuing – have proved necessary to support its growth.

The Group's operations are continuing as normal, and KLUBB remains fully mobilized alongside its commercial partners, intending to continue to honor all of its clients' orders.

Management is approaching this phase with confidence and determination. Its objectives at this stage are clear: preserving jobs, strengthening the Group's competitiveness through an ongoing performance improvement plan, and creating the conditions for sustainable long-term development.

As part of the rehabilitation proceedings, the Group will place particular emphasis on the successful completion of the discussions initiated with its creditors and financial partners, aligned with the interests of the concerned companies, their employees, and all other stakeholders.

## PRESS RELEASE

Ferrières-en-Brie, 3 February 2026

### ABOUT THE JUDICIAL REHABILITATION PROCEEDINGS

Judicial rehabilitation proceedings (redressement judiciaire) are a court-supervised insolvency procedure for companies experiencing difficulties, which aim is to enable the business to continue and jobs to be maintained by allowing the debtor to present a recovery plan providing for the restructuring of debt.

In this context, the management of the four concerned KLUBB group companies will retain their management powers while benefiting from the assistance of FBHX, represented by M<sup>e</sup> Hélène Bourbouloux, and SELARL Ajilink Labis Cabooter Abitbol & Rousselet, represented by M<sup>e</sup> Jérôme Cabooter, acting as joint judicial administrators.

### ABOUT KLUBB GROUP

KLUBB Group is a French industrial player employing 650 people in 4 plants in France, 1 in Italy and 1 in the UK, directly and through its subsidiaries, supported by a network of 48 distributors worldwide.

Already the European leader in the aerial work platform segment, KLUBB Group is expanding rapidly as it continues to enhance its offering and increase its market share worldwide by offering Isoli tow trucks and Titan fuel trucks on vehicles.

Our employees are contributing to our success thanks to our ability to design and produce cutting-edge conversions for demanding technical requirements, in particular by reinforcing the culture of industrial excellence. Through our various entities (including KLUBB Group, KLUBB France, KLUBB SARL, Titan Aero Group and its subsidiaries, Mobitec, Delta Services, Nacelle Assistance et Services, Cumberland Platforms UK, Mondia Wallonie, Hematec, KLUBB Iberica, Isoli SpA and KLUBB Latam), we offer a complete service to our customers, from financing to maintenance.
